

Key Questions Every Company Should Ask:

- Which staffing vendors are providing services to our company, and do we have an active contract?
- How many contract workers are on site, and how long have they been here?
- What rates are we paying for similar skill sets from our providers?

Getting Answers Is Easier Than You Think – With ContractCentral

Here's the process:

1. Launch Portal

- We host a company branded portal that serves as the data gathering vehicle.
- Assist you launching a campaign to your hiring managers, and vendor community to register their firm and activity online.
- Determine a deadline date for vendor registration to drive involvement.

2. Vendor Registration

- Report each active contractor on client site
- Start date/end date of each worker
- Current manager contact
- Key skills used
- Current billable rate
- Upload any project related documents

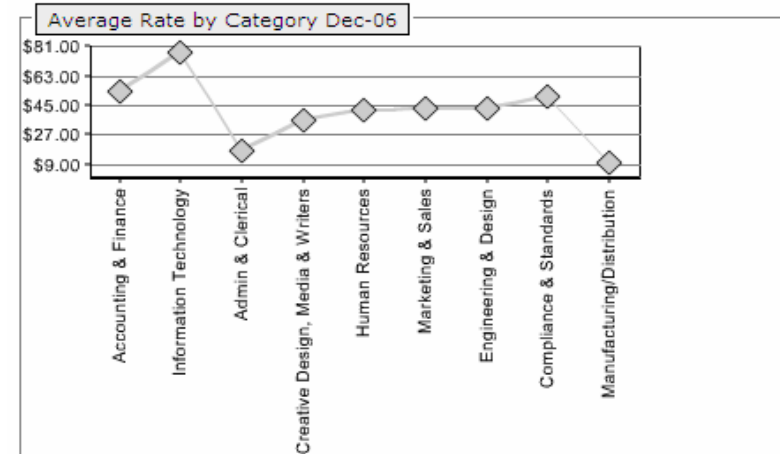

The Results:

- Quickly audit and gather all master contracts and work orders currently active at any client site.
- Data entry and registration distributed to vendor participants.
- Managers involvement minimized to informing vendors regarding registration requirement.

Comprehensive Reporting Tools:

- You will get real-time visibility to the currently reported contract workers as firms report their activity.
- See the makeup of your contract workforce by category, location and skills.
- View current headcounts by staffing vendor.

- View average rates by category of workers as specific engagements are reported by vendors.
- Quickly see which firms are charging the highest rates within categories, and for specific skills.
- Provides "current status" of rate levels paid by skill set.
